# **SUJAL CHAND**

## SOFTWARE DEVELOPER

Vashi - 400703 | 7977232226 | sujalchand777@gmail.com | linkedin.com/in/sujal-chand-b95160302

#### **SUMMARY**

Proficient Computer Science student at Lokmanya Tilak College of Engineering, skilled in web development with expertise in HTML, CSS, JavaScript, and user-friendly website creation. Experienced in projects like carpooling and animal health tracking. Strong knowledge of C++, C, and data analysis, with a passion for leveraging technology to solve real-world problems and drive innovation.

#### **SKILLS**

- Languages: HTML, CSS, JAVASCRIPT, PYTHON, C++, C PROGRAMING, JAVA, MONGODB
- Tools and Technologies: VS Code, Node.Js, React.Js, Canva.
- Problem Solving: Strong analytical and problem-solving skills developed through coursework and projects.
- Mentoring: Experience in mentoring or coaching team members.

#### PROFESSIONAL EXPERIENCE

### Campus Ambassador at IIT Bombay Techfest

August 2024 - Present

- **Event Promotion:** Spreading awareness about the Techfest and encouraging student participation.
- **Networking**: Connecting with industry experts, speakers, and fellow ambassadors.
- Promoted Techfest events through various channels (social media, campus events, etc.) resulting in a significant increase in student participation from college.

## Data Analyst Internship at IBM SKillbuild and CSRBOX

June 2024 - August 2024

- Data Analysis: Learning to clean, process, and analyze large datasets using tools like Python and Excel.
- Analyzed large datasets to identify key trends, patterns, and insights, contributing to data-driven
  decision making for corporate social responsibility (CSR) initiatives.

## **EDUCATION**

St. Mary's Multipurpose High School 2008 - 2021

• Secondary School Certificate

Christ Academy 2021 - 2023

• Higher Secondary Certificate

#### Lokmanya Tilak College of Engineering 2023 - Present

• Computer Science (AIML) Engineering

#### **PROJECTS**

- Carpooling Website: Built a Next.js carpool platform with ride search, booking, and joining confirmations.
- Animal Health Tracker: Designed an Al tool using datasets to identify crop diseases and suggest treatments.
- Simple Calculator: Made a calculator using HTML,CSS & JAVASCRIPT that performs arithmetic operations.
- Attendance Management: Developed an automated Attendance Management system to manage attendance for students
